

Greenlands Conservation Partnership Program For Local and Regional Land Trusts

New Program Shows Big Wins for Nature in Ontario

About the program... The Greenlands Conservation Partnership Program is a plan developed by the Province to conserve ecologically important natural areas and contribute to the government's protected area objectives. Ontario Land Trust Alliance administers this program for local and regional land trusts. In the first three years, the program is on track to exceed its targets, providing more properties, more access to nature and more match than anticipated.

Projects in progress

More than **8100 acres**
(3300 hectares) protected

Habitats protected include:

- Coastal Shorelines
- Tallgrass Prairies
- Alvar Ecosystems
- Forests/Woodlands

For every \$ invested by the Ontario government, **\$5 has been matched** from other grants, private individuals, and foundations

What program recipients are saying:

"One of the reasons we were successful in securing donations was because enough people saw the commitment of the Greenlands Program to feel that their donations were impactful for securement - it was central to us raising donations quickly!"
