

# Bruce Trail CONSERVANCY

## Volunteer Position Description

### **BTC Citizen Scientist Volunteer**

To assist in gathering information on flora along the trail and enter the information into an online database for tracking. Thereby increasing the BTC's knowledge of local flora along the trail, including native, endangered and invasive species.

### **Essential Elements:**

- Read the Volunteer Orientation Booklet including the Volunteer Pledge
- Hike along the Bruce Trail in various locations at different times of the year
- Gather data on local flora using smartphone app
- Submit data to an online website for tracking

### **It is helpful to have:**

- Knowledge or willingness to learn of local flora
- Willingness to hike on the Bruce Trail
- Some computer capabilities and ability to use an online data entry form
- Access to a smartphone and ability to download the necessary app
