

Greenlands Conservation Partnership Program For Local and Regional Land Trusts

About the program: Since 2020, the Government of Ontario's Greenlands Conservation Partnership has been helping conservation leaders like OLTA to protect **ecologically important natural areas** and provide **more access to nature for more people**.

65
completed projects

More than
5,083
hectares secured

Thames Talbot Land Trust lands secured through GCP

Escarpment Biosphere Conservancy lands secured through GCP

34
projects provide public access

- Habitats protected include:
- Coastal Shorelines
 - Tallgrass Prairies
 - Alvar Ecosystems
 - Forests/Woodlands

“ One of the reasons we were successful in securing donations was because enough people saw the commitment of the Greenlands Program to feel that their donations were impactful for securement - it was central to us raising donations quickly!

- Rideau Waterway Land Trust

For every dollar invested by the Ontario government, another **\$5.06** has been **matched** from private donors, other grants, and foundations.

Funding has been made available through support provided by the Government of Ontario

Habitat protected for at least **108 species at risk**, including...

Blanding's Turtle (Threatened)

Gray Fox (Threatened)
